

# SAIL WORKSHOPS

February 2020 . Issue 1

## IN JANUARY

### 11TH - TENERIFE, SPAIN

Helping to achieve the UN's Sustainable Development Goals in the Atlantic by debating various topics in order to attain reliable information on the Atlantic Ocean and coastal areas. Institutions working in the marine scientific and technological field of the Atlantic discussed subjects ranging from affordable marine robotics, to the development of low cost sensors.

### Marine Robotics

### Biodiversity of Macaronesia

### 21ST - PRAIA, CAPE VERDE

Focusing on the terrestrial and marine plant and animal life in Cape Verde, the workshop started with a discussion about the current knowledge on the biodiversity of Macaronesia. From there followed the topic of microplastics and their presence in the region as well as marine spatial planning and the sustainable exploitation of biodiversity.

## FEBRUARY WORKSHOPS

13th - "Metocean Modelling" - Rio de Janeiro, Brazil

25th - "Resilience to Climate Change" - Montevideo, Uruguay
